

Stone Head

Lawrence Upton

Copyright © Lawrence Upton 1990, 1999.

The right of Lawrence Upton to be identified as author of "Stone Head" has been asserted generally in accordance with sections 77 and 78 of the Copyright, Designs and Patents Act 1988.

Stone Head is dedicated to Alaric Sumner.

Stone Head was commenced approximately 1990. Sections have previously appeared in *Chunk* (Pointing Device, 1990), *Statuary in a Small Glass Case* (Pointing Device, 1991), *Performing Arts Journal* and *Words Worth*.

To Alaric Sumner, many thanks indeed. Alaric had been supportive of this investigative project throughout – hence the dedication of the whole thing to him. Others have deserved their dedications in slightly different ways.

Numerous sections have been circulated privately. Sections have been performed at various times over the years at the *Writers Forum Workshop* run by Bob Cobbing.

If I had a very long life, I might colour code it all. As it is, the colour when you meet it will be a nice surprise

AGRICULTURE CLUE *Rise* *Selection* *Matter* beginning expression forbearing
these types of
magnate generally more delicate than those
found with most trees
at any rate over a large area comparatively near to the surface
Ban this reason the top foot of soil over a radius of at
least
CONNECTION from the central stem should be thoroughly dug
and enriched with organic compost producer
Water should be doodad until an adequate root system has had a chance thievery
Fruit Trees
To get the best results the ground must be dug
wither lightened by the addition of suitable organic fibrous poet
Before planting the young tree should be allowed to stand in
rich SIX hours without loosening the root ball
the ball as these
will be responsible for keeping the bush after planting *As*

the tree is set in the ground adjust the depth by adding
earthly that the soil is brought up to some SIX inches above
subdued level which should be visible on the stem
Gently apportion earth around the roots firming it down and
finally watertight

If the weather is persistently dry the tree will deficiency PLENTIFUL SUPPLY OF WATER
UNTIL IT HAS BECOME WELL established *Decorative Trees* The rules which
apply to fruit TREES OFFERING A GOOD GUIDE FOR THE DECORATIVE
VARIETIES *Tunnel* with these species however is the protection of the *Lower If*
This Becomes Damaged It May Take Two Or Canny

for the tree to recover its former appearance *Decorative* TREES ARE ALSO
SUSCEPTIBLE TO SUCKER GROWTH IN THE DECISIVE *These* appear because
most trees in this in this rasping grafted onto a strong growing root stock this stock
ENCOMPASS TRANSPLANT MORE READILY THAN THE FRAGILE decorative
growth spasm not checked will outgrow the decorative foliage resulting fashionable
scrawny appearance
